Gregory Postings CV and Cover Letter

June 2023

Dear Sir / Madam

My love for technology began when I was young, mainly in the form of playing games and watching TV. This has fed into my love for programming and IT in general.

I have learnt many different things during university when it comes to making applications. I have made console, desktop and mobile applications as well as web applications using different techniques and languages. I have also learnt a lot about databases for these applications.

I enjoy learning new things even if I am not the best at them and always try to keep a positive attitude. I can remain calm in stressful situations and when I have time and people to help me I can grasp new concepts. My marks do not really show how much I know but they do show how hard I am willing to work to achieve my goals.

I also enjoy learning things by myself as well and I have a few certificates, badges and certifications to show for it. Some of these were mainly theoretical with only a bit being practical but it was fun learning it any way.

I am a naturally quiet person who is good at listening to people and doing what I am instructed to do. In high school I was part of a number of different committees that got together to discuss different topics. In varsity for the group projects that I did not lead I was given instructions and I did what I was told to do and met the deadlines given to me; as a team we did very well.

I am a good leader with my own unique leadership style and I have been part of a few different teams with different people. I was part of the Claremont Rotaract team where we organized different service events. One of the biggest events was Uncle Willy's Christmas Party in which we had to run the event and we were in charge of all the interactors. In university I was the team lead for one of our projects which was very successful. I was also the project manager of our end of the year/degree project where I was in charge of organizing and managing everything. The project was very successful as well and our lecturer was impressed with our final project. I also recently became a member of a leadership team at my church. We are called the union team which is in charge of the children in grade 8 to 12. We organize different events for them. As a leader I have learnt that it is important to be patient, reliable, understanding and respectful to everyone while still having fun.

If you would like to learn more about me or you would like to see any of my projects please meet with me or contact me. If you need a different opinion of me you can ask anyone who knows me.

Thank you so much for your time and consideration. I look forward to hearing back from you.

Kind Regards

Gregory Postings

About Me

Being an enthusiastic, self motivated individual, I am currently seeking to obtain a position as a developer. I would like to have the opportunity to learn new skills as well as improve on my existing skills. I love to code and to learn new things. I think that I am a good leader as well and can take initiative when I know what is happening. Some of my best group projects are the ones that I lead compared to the ones that I got told what to do. I am an easy going, kind and friendly person with a passion for anything IT related.

Skills

Proficient
- C#
- SSMS (SQL)
- Oracle (SQL)
- HTML
- CSS
- Microsoft Azure
- Microsoft Word
- PowerPoint
- Visio

Intermediate
- Java
- JavaScript
- TypeScript
- MongoDB (NoSQL)
- Angular
- Node.js
- Oracle Cloud
- Microsoft Access
- Project
- Excel

Basic
- jQuery
- Python
- Ruby
- Google Cloud
- C++
- TSQL

Soft Skills
- Leadership
- Organizational
- Listening
- Teamwork
- Positivity
- Critical Thinking

Work experience

Revenue Red
2021 - 2021

During my holiday I learnt how to code for an Arduino. I also made a web application that connected to a database.

Revenue Red
12 March 2023 - June 2023

I mainly worked with blazor server apps using ASP.NET Core as well as SSMS using TSQL to make dynamic pivot tables.

Education

IIE Varsity College	2019 - 2022
Wynberg Boys High School	2013 - 2017
Kirstenhof Primary School	2006 - 2012

Achievements

- Colors for bagpipes
- Wade Bertram trophy for which I was voted in by my peers. It was for bring something new to the school as well as fellowship because everyone got to vote.
- Higher certificate in information technology support services
- Top student awards
